May 7, 2015

Effective immediately, the Judge of Probate is requiring a current credit report and a criminal background report on each nominee for appointment of guardian or conservator for adults or minors.

A current credit report and a criminal background report are also required on each adult seeking a change of their name.

The petitioner in any such case is required to provide a copy of the current credit report for each nominee or adult seeking a name change. These may be obtained on-line. If there is not access to a computer, you should go to the library or possibly your financial institution for assistance in obtaining this. The credit report is to be provided to the Probate Court **PRIOR** to the hearing date.

The criminal background report will be obtained by the Court.
